 employee's impairment on the job as the result of the use of such the drugs
 or medications within the previous 24 months.

4 (C) It shall be conclusively presumed that the employee was impaired 5 due to alcohol or drugs if it is shown that, at the time of the injury, the 6 employee had an alcohol concentration of .04 or more, or a GCMS 7 confirmatory test by quantitative analysis showing a concentration at or 8 above the levels shown on the following chart for the drugs of abuse listed:

27 (D) If it is shown that the employee was impaired pursuant to 28 subsection (b)(1)(C) at the time of the injury, there shall be a rebuttable 29 presumption that the accident, injury, disability or death was contributed to 30 by such the impairment. The employee may overcome the presumption of 31 contribution by clear and convincing evidence.

32 (E) An employee's refusal to submit to a chemical test at the request 33 of the employer shall result in the forfeiture of benefits under the workers 34 compensation act if the employer had sufficient cause to suspect the use of 35 alcohol or drugs by the claimant or if the employer's policy clearly 36 authorizes post-injury testing.

(B) the collecting and labeling of the test sample was performed by orunder the supervision of a licensed health care professional;

20 (C) the test was performed by a laboratory approved by the United 21 States department of health and human services or licensed by the 22 department of health and environment, except that a blood sample may be 23 tested for alcohol content by a laboratory commonly used for that purpose 24 by state law enforcement agencies;

The "current dollar value" shall be calculated by 39 multiplying the percentage of preexisting impairment by the compensation rate in effect on the date of the accident or injury against which the 40 41 reduction will be applied.
