

2020 Kansas Statutes

66-1,186. Designation of commission to submit conservation plan to federal government. (a) Pursuant to the provisions of the national energy conservation policy act, the state corporation commission is designated as the state agency to submit the proposed residential energy conservation plan to the federal secretary of energy as required by such act.

(b) The state corporation commission may apply for, receive and disburse any federal funds made available to state regulatory agencies to provide compliance with such act.

History: L. 1980, ch. 232, § 1; May 15.
