From: Shahira Stafford, Kansas Cooperative Council  
**RE: Proponent Testimony on House Bill 2103**

Mr. Chairman and Members of the Committee,

On behalf of the Kansas Cooperative Council (KCC), thank you for the opportunity to support House Bill 2103. The KCC is a statewide association that works on behalf of all types of cooperatively structured businesses in Kansas. The industries organized as cooperatives are vast, including agriculture, utility, financial and insurance.

Specifically, agriculture cooperatives often have grain, agronomy, precision ag, seed, fuels, feed, and financing operations. Our grain elevator and pesticide dealer coop members pay annual fees into the Kansas agricultural remediation fund within the Kansas Department of Agriculture (KDA). This fund serves as a self-insurance measure to help recoup remediation clean-up expenses if and when they are incurred by our members. As other conferees have testified, this program receives no state general fund dollars and is 100% self-funded by the agribusinesses industry.

The KCC supports the provisions set forth in House Bill 2103, which would allow annual transfers up to \$50,000 from the agricultural remediation fund to administer the pesticide waste disposal program within the KDA. The program was previously administered with federal grant dollars that are now expired; and our members feel that helping pay for the safe collection and disposal of pesticide waste materials is a valuable use of their dollars.

Thank you so much for the opportunity to comment on House Bill 2103, and we respectfully ask for your support.
