Hi Susan,  
I'm sure you are getting several emails regarding this bill. I want to first thank you for all you do for us Kansans. I pray you are blessed for helping so many people.  
My husband and I started Trinity Nursing Staff in 2017, we have over 200 employees and help staff all over Kansas. I pride myself in the fact that we are faith based! Our whole purpose to help our facilities, our residents and my employees experience Gods love wherever we go. We have worked through the pandemic and before; adhering to all the policy changes, mandates, etc. We have been there to assist all our facilities with staffing shortages and even now can't fill them all. Imagine how our residents are going to be effected by this if us agencies are put out of business.

I have no problem providing all the credentialing and backgrounds that are required, because we are run with integrity and have nothing to hide.  
Trinity provides health and supplemental insurance at a very discounted rate, we drug test all employees and provide background checks and competencies. We even provide CPR Classes for our employees at a discounted rate. By adding more insurances that we have to pay for and limiting what we can charge a facility(which Trinity is very fair in our pricing),and allowing our facilities to take our employees without having to buyout their contracts is not ok. How are we supposed to continue.

Our Residents are going to be effected the most because if you take away our employees pay and make them go back to lower wages, most won't stay in healthcare. Our residents look forward to my staff coming to help them on a daily. I have a number of single mother/father employees that depend on the wages they are making.

We provide a need and help solve a problem, please don't allow this bill to go thru. It will be devastating.  
Thank you for your time

Amy Kelly, CEO  
Trinity United, LLC dba Trinity Nursing Staff
