To whom it may concern: Trinity Nursing has been a Godsend to countless people who work for or have worked for in the past ! not to mention all of the patients that have benefitted from their excellent care .Trinity is big enough to meet the needs of the facilities and also small enough to be able help their employees when they get in trouble. A river of Blessings have flowed out of Trinity Nursing ! We were there at the beginning and saw the struggle of trying to start a business . It was touch and go for a while , and there were times of wondering if they were going to make payroll . It was sheer determination and lots of hard work that the business is even still here. I believe our nation was founded on the principle that with a dream and hard work that you could accomplish anything . The entrepreneurial is what drives America ! the reason that they started this business was to try building a better future herself and her family . Much more than even that is her heart for helping people . It is actually pretty rare to find such a caring heart in these times . Our great country is founded on our freedom! The more that the government tries to control , the more they mess with our freedom ! This can not and should not be allowed in state or federal government ! There are already to many regulations that stifle our freedoms! We say no to any new stipulations on the agencies or new regulations that would take away our freedoms! We ask that you would vote down HB2524 ! This would do nothing good for our freedom and also no good for the places that use our staffing ! The government at the state and federal level have in many ways have already over stepped their authority ! Thank you for your consideration ! Randy VanAmburg 1673
