Dear Energy Utilities & Telecommunications Committee Members,

My name is Dolly Farha and I am a current citizen of Belle Plaine, Kansas. I am an opponent to SB 24 on multiple grounds. I believe unregulated utilities in natural gases could negatively impact our community health. I believe regulations for everything is a good thing, no matter the resource. Too much of one thing is never a good thing and I believe that sentiment certainly applies here as well.

I also think that prohibiting us indefinitely from banning natural gases takes away our rights as a city and state to make our own decisions. The permanence of this bill is unappealing to me and I believe it needs to be opposed and thrown out.

I hope this reaches you all in good health and warmth--considering the current storm. I hope you listen to my words and understand that I, as a citizen, am asking you to represent my beliefs.

Sincerely,  
Dolly Farha.
