

My name is LaTonya Boyd.

I'm writing on behalf of HB2058.

I want to tell you how gun violence has affected me. My 21 year old daughter Tyesha was murdered by a person who got his hand on a gun he should not have been able to get his hands on. He was convicted of domestic violence. October 13, 2009 - my life was forever changed after getting that phone call from a detective that my daughter Tyesha was shot multiple times and her two little girls would grow up without their mother. That is not the first time I have been affected by gun violence. I have had two uncles murdered and two young cousins murdered as well. If you pass HB 2058 you are letting out-of-state teenagers, convicted stalkers and people who may have never used a handgun before to carry a hidden, loaded gun in the state of Kansas. Please do not pass HB2058 for the safety of the people who live in Kansas.

Thank you,
LaTonya Boyd
