Now, is the time for Kansas to pass a resolution to call a convention of states to propose amendments to our constitution that will constrain Federal overreach, impose fiscal constraints, and create federal term limits. The dysfunction of Washington becomes more obvious each passing year, with little if no interest from either political party to impose any limitations on its self. We the people must stand and be heard, or we may lose the very Republic which are founders and framers pledged their lives, fortunes, sacred honor to one another in order to establish! If not you, then who? If not now, than when? Are you ready to honor your duty as elected representatives of the people and by the people?

We must not ignore our sacred duty to be engaged citizens in our self-governance, making known our wishes and grievances to be addressed by those we elect to represent us. For far too long, we have taken for granted someone else would make our wishes known, and keep our government accountable. If not me, then who? If not now, than when? The issues we face today are the result of our own doing! But if we stand today and pledge our lives, fortunes, and sacred honor to one another we stand the chance to save what has been given to us. Let us not be the generation that lets it slip away! I love my country, I love its citizens, and proud to be a patriot that will not take it for granted! I will pledge my life, fortune, and sacred honor to you to protect it! So have heart, and know you have our support to do what is right, good, and honorable!

Today, help save what we all so cherish! Thank you so much for your service! God bless you, and God bless the United States!
