Proponent of HB 2498

Madam Chair Landwehr and the House Committee on Health and Human Services:

I urge you to vote in favor of this bill.

I do not believe something that has not gone through proper testing, has been proven not to work while also proven to do harm should not be made a requirement for school, preschool or daycare. It should remain optional for parents who wish to do so, but not forced on those who do not.

Thanks for your time and consideration.

Tammy Davis
