Dear Congressional Representatives in the Kansas House,

I write in strong support of House Bill 2425, as it is important for student voices to be represented and have voting power.

The Kansas Board of Regents, like other governing and advising boards of universities would benefit from student representation, as students are the most significantly impacted by the decisions made by the KBOR.

Within committees of staff and faculty on campus, there is often a student included (including hiring, advising, etc.) as it goes without question that anyone serving a university must be serving student needs and futures as well.

Please accept this testimony in support of House Bill 2425.

A handwritten signature in black ink, appearing to read "Emily Ryan", with a stylized flourish at the end.
