HB 2550
OPPONENT testimony
Written Only

Chair Williams and members of the committee:

I strongly oppose HB2550. This bill will transfer taxpayer dollars to private schools; it will undermine public school education by further reducing available resources; and it rests on the inequity of transferring public funds to selected students. HB 2550 unfairly underwrites a two-tiered educational system that favors selected private-school students while hurting the majority who attend public schools.

I am submitting this written testimony only.

Respectfully yours,

A handwritten signature in black ink that reads "Jane W. Gibson". The signature is written in a cursive style with a large, looping initial "J".
