

Dear Kansas House and Senate Redistricting Committees,

I write to you today in support of the Ad Astra Congressional map.

The Ad Astra Map maintains important communities of interest including our major research universities in the first congressional district and major military installations in the second congressional district.

Ad Astra also keeps our three most populous, Johnson, Sedgwick and Shawnee counties whole.

The lines between Congressional districts are drawn by natural, geographic, and historical boundaries.

On behalf of all Kansans, I urge your support for the Ad Astra Congressional map.

Thank you for this consideration.

Best regards,

Frank Brady
