Chairman Smith and other members of the House Tax Committee:

I am here to testify in support of HB 2484. My constituents and yours have been asking for this for decades. Kansans are taxed to death (See attached.) According to Kiplinger, Kansas ranks 3rd for worst state to retire in and 6th for outward migration. For your additional information, this bill does not include **alcoholic beverages** or **tobacco**, but I would consider that a friendly amendment.

So, you have a chance to finally do something **GOOD** for all your constituents who are being taxed out of Kansas. The other great side-benefit to this is those businesses that sell and serve food on the border may pick up a little extra business. It would be great to hear people from our neighboring states say, "Let's go over to a Kansas **restaurant, convenience store, or grocery store.**" **No sales tax – it's a great win-win for Kansan taxpayers.**

Kansas ranks 43rd in vehicle property tax
