

Kansas Legislature,

Good morning. While I cannot testify in person at the January 31, 2022 hearing, I do want to express my support of this Bill and effort. The tax exemptions resulting from this Bill would be beneficial to both members of the Kansas National Guard and to active-duty service members who are subject to Kansas State income taxes. I believe that Kansas as a whole would benefit from this legislation as the result will allow for more income to be kept and subsequently spent in our State by our Guardsmen; and, will entice active-duty service families stationed here to consider making Kansas their State of residence. Thank you.

Roderick Cox
