Testimony HB 2720

I would like to submit testimony in support of HB 2720 regarding the elimination of sales and compensating use tax for sales of food. I see many benefits from this bill.

- Kansas has higher sales tax on food than surrounding states
- Added jobs for local communities
- Lower cost results in more money to spend on healthier foods
- Helps all businesses in the community to retain customers

In summary, everybody wins with the elimination of food sales tax.
