

# **TECHNICAL APPLICATION PROJECT FOR SNAP SUCCESS (TAPSS)**

Tom Pagano, CIO

Kansas Department for Children and Families

Kansas Department for Aging and Disability Services

# TAPSS

Purpose is to improving communication and reduce costs around ongoing Food Assistance Work Program requirements

DCF engaged the University of Kansas Center for Public Partnerships & Research (KUCPPR) to assist with obtaining and managing the USDA grant. North River Integrations (NRI) for application development and deployment

Project is estimated to cost \$1.2 million from a Federally funded Grant

Go live date and evaluation period

Deployment  
12-28-2022

Evaluation  
6-20-2023

Risks

Risk Analysis was performed according to CITO requirements. Seeing the project is nearing its completion, only relatively minor adjustments to ongoing routine implementation risks remain

# Questions

# Electronic Health Records
