

March 17, 2021

CHAIRMAN HILDERBRAND AND SENATE PUBLIC HEALTH AND WELFARE
COMMITTEE:

I am asking you to support SB 212.

SB 212 protects Kansas school children from additional vaccines being mandated into their bodies by the Secretary of the KDHE. There are already approximately 70 doses of vaccines on the childhood vaccination schedule for Kansas children.

The Secretary of the KDHE is an appointed position; this person is not elected by the voters of Kansas. This power should not be given to an *unelected* person.

I would like the power of the KDHE to come under the authority of our *elected* representatives. KDHE should be able to recommend, suggest, or give ideas--but **not to mandate and regulate**.

This link is a sobering look into the health crises of today's children.

**PLEASE TAKE A STAND FOR PROTECTING OUR KANSAS CHILDREN BY
SUPPORTING SB 212.**

Thank you.

Respectfully submitted,

Cindy Bauer
