

Good day, legislators,

I am writing to ask you to please vote in favor of SB478. While it seems inevitable that wind farms are coming to our area in a large force, I would implore you to please regulate the lighting that it will bring with it. Some of us, like my family, moved here for the peace and quiet of a rural area and the scenic views. And now my 40 acre dream land will be surrounded by blinking red lights. I have accepted that we will be smack in the middle of all of these wind farms, but I do ask that you help those of us on the edges of them by mitigating the light that they will emit.

Thank you for your time,

Penny Massing
