I am writing in opposition to the Biden administration's proposed 30x30 plan. We are Republic County lands owners with property adjacent to the Republican River. It is our concern that this proposed plan would compromise our private property rights. In reading the plan waterways and private property can easily be brought under regulations in opposition to our rights as land owners. Our County Commissioners are presently having legislation drafted to exempt Republican County from any such land acquisition by the federal government.

As our elected officials we are requesting you take action on the state level to take Kansas out of any such plan. Urban people are often unaware of how such regulations could one day affect the food supply and the rights of private individuals.....even them in the future.

We are requesting you take our concerns into consideration and draft appropriate legislation exempting Kansas as a whole from this plan.

Sincerely,

Dennis and Carol Jean Urie
