Stephen Bainum, Committee Assistant

Conferees appearing before the Committee:

Others attending: See attached.

Representative Hedke introduced a House Resolution, HR 6032 The United Nations Agenda 21. It was received without objection.

The Chairman called upon the committee to work **SB 276—Alcoholic beverages; amendments to law prohibiting licensee from hiring certain employees.**

Representative Goico asked what the compromise was between the positions. The Chairman said there were some policy changes that ABC came up with that will be a good idea at some point.

Representative Patton said that we heard from the state that no background checks were being done. There is no statute that requires it. Later the new administration started doing them and that caused a cost problem. The original bill was to transfer the costs to the private companies. The solution was to not do the background check until there was a reason to do them. The issue was settled without any additional law.

*Representative Goico moved, seconded by Representative Howell to move SB 276 out favorably for passage.*

*Representative Goico made a motion to amend the bill with the compromise language.*

Mike Heim said the compromise language would delete the lines 12 through 22. It would substitute for that “knowingly employ or continue to employ any person convicted of a person felony or a drug felony or someone who has to register as a sex offender”.

Representative O’Hara asked if this would have anything to do with doing background checks on everyone. There is no current requirement for background checks in statute.

Representative Patton said the compromise had nothing to do with background checks.

Representative Wolfe Moore asked if law enforcement had endorsed this change. Some of them said that they were ok with that.

Representative Loganbill asked what the background checks cost. Doug Jorgensen replied that there are two types of background checks. There is the in state one that costs ABC \$7.00 and one that checks the FBI database and it costs two to three times as much.

Restaurant Knox asked if any restaurant would be allowed to have only a smoking area. The Revisor said that the bill implies that they would have to provide a non-smoking area.

The Kiegerl motion failed. We are back on the base bill as amended.
