**Bill Explanation for 2010 Senate Substitute for House Bill No. 2631
As Amended by Senate Committee on Ways and Means**

Senate Substitute for House Bill No. 2631, as amended by the Senate Committee on Ways and Means, contains FY 2010 supplemental expenditures for a number of state agencies, FY 2011 funding for most state agencies, and FY 2010 and FY 2011 capital improvement expenditures. An overview of the Governor's amended budget recommendations, and the Senate Committee's adjustments to the Governor's amended recommendations, are reflected below.

FY 2010 (Current Year) Adjustments

Based on actions of the 2009 Legislature, it was estimated by the Research Department that FY 2010 expenditures from all funds would total \$13.514 billion. The *Governor's Budget Report*, as amended by Governor's Budget Amendment No. 1, issued April 19, 2010, revises the all funds FY 2010 budget to \$14.409 billion, an increase of \$1.3 billion above the earlier estimate. Major differences from the session-end estimates and the current Governor's recommendation include.

- An increase of \$1.1 billion, all from special revenue (mainly federal) funds, in the budget of the **Department of Labor**, primarily for increases to estimated unemployment benefits.
- An increase of \$89.4 million from all funding sources in the budgets of the **Department of Social and Rehabilitation Services and the state hospitals**, primarily reflecting additional federal funds expenditures and caseload increases. **State General Fund expenditures for SRS and the hospitals decrease by \$19.2 million.**
- An increase of \$61.3 million from all funding sources in the budgets of the **Kansas Board of Regents and the Regents institutions**, primarily reflecting additional special revenue fund expenditures. **State General Fund expenditures for the Board and the institutions decrease by \$17.7 million.**
- The Governor's November 2009 State General Fund allotment included the expenditure of approximately \$92.5 million more in federal **American Recovery and Reinvestment Act (ARRA)** funding in FY 2010 than approved by the 2009 Legislature, to offset State General Fund expenditures.

At the close of the 2009 Session, FY 2010 expenditures from the State General Fund were estimated to be \$5.613 billion. The *Governor's Budget Report* revises the FY 2010 State General Fund budget to \$5.417 billion, a decrease of \$195.8 million below the earlier estimate.

- A number of the FY 2010 recommended State General Fund adjustments were included in the **Governor's July and November 2009 State General Fund allotments**. These allotments, through a series of recommended revenue adjustments and expenditure reductions, are intended to increase the FY 2010 State General Fund ending balance by \$391.6 million. Approximately \$95.0 million of the recommended adjustments require legislative authorization.

Senate Ways & Means Cmte
Date 4-28-2010
Attachment 1

- As noted above, the Governor's 2009 State General Fund allotment included the expenditure of approximately \$92.5 million more in federal **ARRA** funding in FY 2010 than approved by the 2009 Legislature, to offset State General Fund expenditures of the same amount in the budgets of the **Department of Education** and the **State Hospitals**.
- State General Fund expenditures in the budget of the **Department of Education** decrease by \$94.0 million, although the decrease is partially offset by \$85.9 million in additional ARRA funding.

Senate Committee Recommendations for FY 2010

In 2010 Senate Substitute for HB 2222, the Legislature reduced the Governor's recommended expenditures by \$405,522 from all funding sources, and \$123,314 from the State General Fund. The Senate Committee's recommendations for the current year **in this bill** increase expenditures from all funding sources by \$509,357, but reduce recommended State General Fund expenditures by an additional \$31.4 million. The Committee's recommendations offset FY 2010 State General Fund expenditures of \$16.4 million in the budget of the **Health Policy Authority** with federal funds to capture savings associated with the enhanced federal match rate to "clawback" payments for the Medicare Modernization Act of 2003. The recommendations also offset \$15.0 million in State General Fund expenditures in the budget of the **Department of Social and Rehabilitation Services** in the Foster Care program with available amounts from the Temporary Assistance for Needy Families Fund.

Overview of FY 2011 Governor's Amended Recommendation

The Governor recommends expenditures of **\$13.7 billion** from all funding sources in FY 2011, including expenditures of **\$5.8 billion** from the State General Fund:

- ◆ State General Fund expenditures **increase** by \$415.1 million, or 7.7 percent.
- ◆ Expenditures from all funding sources **decrease** by \$682.0 million, or 4.7 percent.
- ◆ The Governor's amended budget provides for a **negative ending balance** of \$160.2 million in FY 2011.
- ◆ Recommended State General Fund **expenditures exceed revenues** by \$85.2 million.
- ◆ The Governor recommends a number of revenue enhancements for FY 2011, including a three-year, 1.0 percent (from 5.3 percent to 6.3 percent) increase in both the state **sales and compensating use taxes**, estimated to provide an additional \$308.2 million to the State General Fund (and an additional \$43.1 million to the State Highway Fund in FY 2011). The Governor also recommends increasing the **state tax imposed on a pack of cigarettes** from \$.79 to \$1.34 (estimated to increase revenues by \$52.0 million in FY 2011), and to increase the state tax rate on **other tobacco products** from 10.0 percent to 40.0 percent (estimated to raise an additional \$17.5 million in FY 2011).
- ◆ The Governor also recommends a number of adjustments to the **State General Fund transfers** included in the November Consensus Revenue estimates for both FY 2010 and FY 2011. The FY 2010 recommended adjustments increase estimated revenue to the State General Fund by \$98.0 million, and the FY 2011 recommended adjustments would increase estimated revenue by \$274.5 million. Some of the adjustments were included in

the Governor's July and November 2009 budget allotments, but require legislative action to take effect. The major adjustments in both years are transfers from the State Highway Fund to the State General Fund (an additional \$80.0 million in FY 2010, and \$107.4 million in FY 2011). The recommendation for FY 2011 also includes: suspending the machinery and business equipment transfer (\$44.0 million), capping the annual transfer to the Bioscience Authority (\$35.0 million), stopping the scheduled repayment of prior year transfers to the Department of Transportation, the Insurance Department, and the Department of Health and Environment (\$34.6 million), and suspending the deferred maintenance transfer to the State Board of Regents (\$15.0 million).

- ◆ **FY 2011 State General Fund expenditures** for the Department of Education increase \$178.9 million (6.3 percent), and increase for the Department of Social and Rehabilitation Services, the Health Policy Authority, and Department on Aging by \$133.4 million, or 11.5 percent. In addition, State General Fund expenditures for the Board of Regents and the Regents institutions increase by \$10.0 million (1.3 percent) in FY 2011. Most of the increase in FY 2011 reflects the expenditure of significantly higher amounts from the federal American Recovery and Reinvestment Act (ARRA) funding in FY 2010 which is replaced with State General Fund in FY 2011. Not as much ARRA funding is projected to be available to offset State General Fund expenditures in FY 2011.
- ◆ The Governor recommends FY 2011 expenditures of \$426.5 million from **federal ARRA funding**, a reduction of \$587.4 million (57.9 percent) from the FY 2010 recommended total of \$1.0 billion. The Governor's November 2009 State General Fund allotment included the expenditure of approximately \$92.0 million more in FY 2010 than approved by the 2009 Legislature, to offset State General Fund expenditures.
- ◆ The Governor recommends no general salary increase for FY 2011. The Governor's recommendation does include \$8.5 million, all from the State General Fund, for continuation of the **state employee pay plan adjustments** approved by the 2008 Legislature for those classified employees who are considered under market level for their job classifications. The Governor also recommends longevity bonus payments for eligible state employees in FY 2011, at the rate of \$50 per year of service for each year over 10 years, with a cap at 25 years of service. These expenditures are estimated at \$14.4 million, with \$6.0 million from the State General Fund.
- ◆ The recommendation reduces **FTE positions** by 64.0 from FY 2010 to FY 2011.

The following two charts illustrate the Governor's recommended FY 2011 State General Fund expenditures by function of government and by category of expenditure. Education (including local school aid and Regents universities) receives 65.3 percent of the State General Fund expenditures in the Governor's recommendations. Aid to local units comprises the largest category of expenditure in the Governor's budget with over half of the FY 2011 State General Fund budget (55.5 percent) distributed to local units of government, primarily through local school aid.

Overview of the Senate Committee's Recommendation for FY 2011

The Senate Committee actions for FY 2011 decrease the Governor's recommendation by \$60.7 million from the State General Fund and increase expenditures from all funding sources by \$115.0 million. In addition, the Committee's actions decrease State General Fund receipts by \$7.9 million in FY 2010 and \$0.4 million for FY 2011. The Committee's recommendations decrease the Governor's estimated receipts by \$10.0 million in FY 2010 and by \$377.6 million for FY 2011, because the Committee's estimated receipts do not reflect revenue increases recommended by the Governor which have not been enacted at this point in the Legislative Session.

Among the Senate Committee's recommendations:

- ◆ The Senate Committee recommends adding \$217.9 million, including \$21.8 million from the State General Fund, in the budget of the **Adjutant General** for FY 2011 disaster relief payments.

- ◆ The Committee recommends deleting a total of \$40.8 million, including \$18.8 million from the State General Fund, in the budgets of the **Department of Social and Rehabilitation Services, the Health Policy Authority, and the Department on Aging**. Reductions include: \$2.6 million, all from the State General Fund, to reduce mental health state aid to Community Mental Health Centers; \$4.5 million, all from the State General Fund, to reduce direct services grants and state aid to Community Developmental Disability Organizations; \$1.5 million, all from the State General Fund, to reduce funding for the General Assistance program for FY 2011; and \$8.7 million, including \$3.1 million from the State General Fund to reduce funding for Home and Community Based Services waivers for FY 2011.
- ◆ The Committee recommendations include the deletion of \$32.8 million, all from the State General Fund, in the budget of the **State Department of Education** to delete the Governor's recommendation to increase Base State Aid Per Pupil (BSAPP) by \$50 for FY 2011.
- ◆ The Committee recommendations also delete \$10.0 million in the budget of the **Board of Regents** for FY 2011, to reduce the Governor's recommendation for the postsecondary education system to the FY 2006 level.
- ◆ The Committee recommends the deletion of \$351,074, all from the State General Fund, in the budget of the **Legislature** for FY 2011. The recommendations include the deletion of \$125,000 to reflect the continuation of limitations for FY 2010 from 2010 Senate Substitute for HB 2222 on legislative postage (franking) privileges, and the deletion of \$97,100 based on the recommendation to limit interim and joint committees to a total of 60 meeting days during the 2010 interim. The Senate Committee also recommends the addition of language in the Legislature's budget limiting funding for legislative leadership days as follows: President/Speaker - 30 days; Majority/Minority Leaders - 20 days; Chairs of Ways and Means/Appropriations - 15 days; Vice-President/Speaker Pro-tem - 10 days; Assistant Majority/Minority Leaders - 5 days; and providing for no days for other leadership positions.

The following table reflects the FY 2011 Governor's recommendations, the Senate Committee recommendations, and the difference between the two.

Overview of FY 2011 Governor's Amended Capital Improvements Recommendation

The Governor recommends FY 2011 capital improvements expenditures of \$761.7 million, including \$34.7 million from the State General Fund. The recommendation is a reduction of \$223.8 million, or 22.7 percent, all funds and an increase of \$21.5 million, or 162.9 percent, State General Fund from the FY 2010 recommendation. The majority of the all funds reduction reflects State Highway Fund monies in FY 2010 that are not present in FY 2011. The increase in State General Fund expenditures reflects the debt service principal payments that will resume for FY 2011 after the restructuring of debt in FY 2010.

Of the total expenditures for FY 2011, \$574.9 million, or 75.5 percent, can be attributed to the State Highway Fund, \$53.9 million, or 7.1 percent, to the three state building funds –

Educational Building Fund, State Institutions Building Fund, and the Correctional Institutions Building, \$34.7 million, or 4.6 percent to the State General Fund, and the remainder to special revenue funds.

Overview of the Senate Committee's Capital Improvement Recommendations

- The Committee recommends the addition of \$635,100, all from special revenue funds, for deferred maintenance for FY 2011 at **Fort Hays State University** to reflect updated estimates of revenues into the agency Deferred Maintenance Support Fund.
- The Committee recommends the addition of \$459,357, all from the State General Fund, in the budget of the **Adjutant General** for the National Guard Museum Assistance Fund in FY 2010 for the 35th Infantry Division museum expansion. 2008 Senate Substitute for House Bill Number 2923, Section 6, provided that an amount equal to 30.0 percent of net profits from the Veteran's Benefit instant scratch-off tickets from July 1, 2008 to June 30, 2010 be used to fund the 35th Infantry Division Museum and museum education center. The language in the bill requires that the Lottery Commission transfer the proceeds from this game to the State General Fund. Once the funds have been transferred they are available but must be appropriated to the Adjutant General's Department for the museum expansion. Within the time bounds set by the bill, 30.0 percent of the game's revenues are estimated to generate a total of \$968,687. The Committee heard testimony that the original estimated cost of the project was around \$1.1 million dollars, however, the revised project cost came in significantly less, and will be closer to \$729,357. As the Governor's recommendation includes the FY 2010 expenditure of \$270,000 in lottery proceeds that had previously been transferred to the expansion fund, the additional \$459,357 would allow for the completion of the expansion project.
- The Committee recommends the deletion of \$69,336, all from the State General Fund, to achieve a State General Fund reduction of approximately 2.5 percent from the Governor's recommendation for FY 2011 for capital improvement expenditures in the budget of the **Department of Administration**.
- The Committee recommends the deletion of \$199,499, all from the State General Fund, in the budget of the **Judicial Branch** for the construction of a new judicial suite for the 14th Court of Appeals judge and staff offices for FY 2011.
