

2012 Kansas Statutes

13-1077. Same; improvements to be approved by governing body. Before the lessee shall construct warehouses, grain elevators, industrial establishments, roads, streets or drives, or make any other improvements on said levee property, he or she shall submit to the governing body for its approval detailed plans and specifications of such proposed improvements, and such improvements shall not be made unless such plans and specifications shall be approved by the governing body of such city.

History: L. 1929, ch. 125, § 4; March 8.
