

2012 Kansas Statutes

74-6602. Purpose. The purpose of this act is to secure for the people of Kansas the benefits of an enduring resource of natural and scientific areas by establishing a system of natural and scientific preserves, to provide for the protection, control and management of these areas, and to establish and maintain a registry of natural and scientific areas.

History: L. 1974, ch. 322, § 2; July 1.
