Thank you Mr. Chair:

There are numerous not for profit entities that receive public funds. The majority of these entities do a great job and provide a benefit to the culture at large or a benefit to a narrower group of citizens that have specific needs.

Some of these entities have a great deal of taxpayer monies available to them. While I believe they operate honestly and with the public's highest interest in mind, I also believe that there needs to be a mechanism in place to make them more accountable to the public at large for the expenditures of those funds.

I support the concept of HB 2188 and will trust the committee to enact the appropriate level of scrutiny and transparency that the public needs and deserves.
