RE: Kansas Board of Technical Professions Statute Revision Bill #54

Federal and State Affairs Committee Members:

The Kansas City-Omaha Section of the Association of Environmental and Engineering Geologists (AEG) participated in and contributed to the preparations of the revised statutes for Kansas Board of Technical Professions. The practice of geology is an addition to the statutes that occurred after the last revision. Because of this, the statutes related to geology are located in the back of the last revision. Senate Bill #54 takes the geologic statutes and combines them with the other technical professions. The Kansas City-Omaha Section of the AEG supports Senate Bill #54 as presented.

Sincerely,

Gregory C. Ohlmacher PhD, P. G.
Chairperson, Kansas City-Omaha Section
Association of Environmental and Engineering Geologists

AEG 56th Annual Meeting at the Westin Hotel, Seattle, WA, September 8-15, 2013
