

RE: HB 2566 Equalizing penalty comparisons between cannabis & hemp

Date: 2.6.2018

Name: Deborah A Plummer

I have written / visited / sent medical-based researched articles-journals entries about cannabis to my representatives - Laura Kelly and Francis Awerkamp. I'm sorry you all can't accept science but will continue to be funded by the sick and diseased corporations like alcohol and pharmaceuticals giants ...

You may continue to do so but not at the expensive of us who can be healthier with cannabis than with what is offered by corporate pharmaceutical products or by the brain-holing alcohol products on the market currently. If you can pass more laws increasing alcohol products, you can pass laws making medicinal cannabis legal .. now.

Enough of your silliness against medicinal cannabis .. you all remind me of Nixon and Halderman's attempts to create a civil war by separating us by cannabis .. If you have read your history, you would know this .. and be ashamed of what you are doing now. My sister died from breast cancer because she refused to use cannabis .. said, it was illegal. Although, she'd partoke of the fifthly, highly expensive, heroin, but legal pharma product ..

Do your job and what the majority citizens of Kansas want you to do. Pass Medicinal Cannabis, or at the very least, exempt all hemp products as defined under 7606 of the Federal Farm Act of 2014.

PS I'm a part of the "Juvenile Justice" team and I wonder, if the "comparison gathering" has anything to do with asking for money in the "Juvenile Justice" bill? If you need money for social programs / the safety net / our commons .. don't take it from our children .. and from those whose needs have gone unmet for years / decades. You have an opportunity just like Colorado and many other states have taken ... OR, instead of giving our tax money to the wealthiest people / corporations in the world (i.e. Kochbrothers), you could tax them, instead of middle class, the poor and us.
