Leadership

The leadership of the organization is a group of highly competent and dedicated people who work hard on many matters that are extremely important to all of us who are interested in keeping square dancing thriving. They are not a closed group in terms of ideas. They seek and heed input from a broad base of opinions worldwide. Committees do most of their work by email, so all members have an opportunity to participate.

The Board of Governors meets annually at the CALLERLAB convention to discuss issues, concerns, and items of interest to the Membership and the activity. Members are welcome to attend and take their questions directly to the Board.

Annual Convention

The Convention is where callers and partners meet and visit annually. Many interesting and educational topics are programmed and presented by members. Callers who attend state that it is well worth the effort to be there. This is evident from the fact that they travel from as far away as Japan, Australia, Europe, Canada, and across the USA. (For more details, see the "Why go to Convention?" flyer.)

Program Lists

The standardization of program lists and call definitions allows a square dancer to travel anywhere in the world and dance the same calls he/she learned at home. Before CALLERLAB, that was not possible. The managing of the lists is done by CALLERLAB committees and continues to this date.

Insurance and Licensing in USA

Insurance is available for all callers in the USA (non-CALLERLAB members pay a \$27 administration fee). It provides Liability coverage up to \$1 Million per occurrence, with an aggregate limit of \$3 Million per event, Medical coverage, and Accidental Death and Dismemberment. The policy year begins April 1.

CALLERLAB has negotiated with BMI and ASCAP to allow the licensing of callers rather than individual clubs. The licensing is managed through CALLERLAB and all callers who call in the US must be licensed.

Scholarships

Any caller can apply for a scholarship to attend a Callers School. Priority goes to applicants with less than five years of experience. Although one of the staff members at the school must be a CALLERLAB Accredited Caller Coach, the caller receiving the scholarship does not need to be a CALLERLAB member.

Documents

CALLERLAB creates and maintains a wide range of caller training documents, most of which are available to any caller or dancer by downloading from the website at no cost. The definition documents and some others have been translated into one or more foreign languages.
